Dear Tom:

I am really happy with the reporting service I have signed up for through NACM. It was very easy to get set up and I now have a wide variety of reports to choose from. I have had to call customer service for technical help and have found them to be quick on solving the problem. Any billing questions or problems, Carol was quick to resolve the problem.

I have such a wide spectrum of new accounts, some opened 1 month to having been in business for over 40 years. I can select whichever report would be beneficial for the application I am working on. I like having a choice, being able to get as much information that I might need.

I would recommend any credit department to check into the services offered by NACM. I am sure you would find the reports that would best work for you as well.

Thank you Tom and Carol, as always, it's a pleasure to do business with you.

Sincerely,

Gloria Howard  
Credit Manager
